RENTAL RETURNS

Supported by major employment hubs, excellent connectivity, and strong amenities, District 18 is a lucrative and popular suburban district for rental.

URA data shows that the median monthly rents for ECs in District 18 surged by 61.5 per cent from 2020 to Q3 2025. Rental demand stayed healthy with 361 units leased in Q1-Q3 2025.

Under the URA's Draft Master Plan 2025, the East Region around key economic hubs such as Changi Airport, Changi Aviation Park, Changi Business Park, and Tampines Regional Centre will be extensively transformed. Therefore, Rivelle in District 18 is well-positioned to benefit from strong rental demand and rental price appreciation.

EXIT STRATEGY

HDB owners in towns like Bedok and Tampines are well-positioned to upgrade to private homes due to significant price growth of HDB resale flats in these areas.. From 2015 to Q3 2025, the median resale price of HDB flats (under 20 years old) in Bedok surged by 48.8 per cent to S\$820,000, while in Tampines, prices climbed by 61.4 per cent to S\$784,444. As a result, the overall overall median price for both towns climbed by 54.5 per cent over the same period.

Moreover, many flats in the vicinity will be reaching their five-year Minimum Occupation Period (MOP) soon. Based on HDB data, over 7,000 flats are projected to reach MOP between 2025 and 2027 in Bedok and Tampines. These residents will likely form the bulk of future upgraders who may be interested to purchase a unit at the Rivelle Tampines when the project is completed.

URA MASTER PLAN FUTURE TRANSFORMATION

ENHANCED CONNECTIVITY & TRANSPORTATION

The area will enjoy excellent connectivity. The Cross Island Line (CRL), slated for completion by 2030, will connect the place to major hubs like Jurong Lake District, Punggol Digital District, and the Changi region. At Tampines North, an integrated transport hub (ITH) will be co-located with the station to streamline bus–rail transfers and shorten cross-island journeys. Moreover, residents will enjoy MRT connectivity where Tampines is served by an EWL–DTL interchange in the town centre.

URA's East Region plan focuses on enhancing first-and-last-mile connectivity and developing mixed-use station nodes to create vibrant, convenient, and well-integrated communities. This approach integrates housing, amenities, and transport to bring convenience closer to residents and reduce travel times. Therefore, the area will be offering more seamless walking, cycling and station-anchored amenities at Tampines North (ITH with a hawker centre, community club, and new amenities), making everyday mobility a breeze for residents.

RESIDENTIAL LIFESTYLE AND GREEN SPACES

Residents can enjoy greenery at the nearby Tampines Boulevard Park (10.06 ha), which offers green corridors and water feature.

The Tampines Park Connector links Bedok Reservoir Park to Pasir Ris Park, offering an expanded park-connector that links residents to the Tampines Eco Green and the eastern coast. This network, together with Tampines Eco Green, broadens leisure and fitness options that complement new CRL access.

An upcoming mixed-used development at Tampines Avenue 11 will also offer a new hawker centre, community club, and other amenities to residents living in Tampines.
